

FEEDBACK

1. Ayesha Patel – BITS Pilani

"This was my first hackathon and it completely exceeded my expectations! The mentors were super helpful, and the atmosphere was electric. I can't wait to come back next year."

2. Rohan Mehta – VIT Vellore

"We barely slept but it was totally worth it. Winning Best UI/UX with my team was the highlight of my year. The organization was top-notch!"

3. Shruti Iyer – IIIT Hyderabad

"The theme 'AI for Social Good' really inspired us to build something meaningful. Even though we didn't win, I learned more in 36 hours than an entire semester."

4. Arjun Das – Freelance Developer

"What I loved most was the diversity of ideas. So many innovative projects and the networking opportunities were gold. I already have two collaboration offers!"

5. Meenal Shah – SRM University

"Free Red Bull, pizza, and GitHub swag aside, the event was super well organized. I appreciate how seriously the mentors took our questions—even at 4 AM!"

6. Harshil Jain – IIT Delhi

"The judges gave really actionable feedback. And the fact that industry reps were around the whole time made it feel real and exciting. 10/10 experience."

7. Anika Bose – NIT Trichy

"I've attended three hackathons before, but this one had the best vibe. The cloud resources and ML APIs provided really helped accelerate our development."

8. Dev Thakur – PES University

"Our project didn't turn out as expected, but we got a special mention and some great feedback. Plus, I got a LinkedIn connection from a Google engineer!"

9. Tanya Kapoor – Christ University

"The live music break at 2 AM? Genius. I think that's what kept us sane. Props to the organizers for taking care of mental health during the crunch time."

10. Neil Reddy – MIT Manipal

"The fact that a student-run team pulled this off so smoothly is mind-blowing. From the food to the finale, everything ran like a dream. Can't wait for 2026!"
