

UI HERO REPORT

The UI Hero workshop, organized by IIC RSET and led by Amit, was successfully conducted on March 23, 2026, at the Sycamore Lab. The session saw enthusiastic participation from over 60 students across various departments. The workshop covered key concepts of UI/UX design, including user research, wireframing, and prototyping using tools like Figma. Interactive activities and real-world case studies helped participants gain practical insights. Feedback collected indicated high satisfaction, with many students expressing interest in advanced design sessions and future collaborative projects.
